

LA CAML Code	Project
1	SEASonality of the DRAKE Passage pelagic ecosystem: BIODiversity, food webs, environmental change and human impact. Present and Past (DRAKE BIOSEAS)
2	Impact of Climate induced Glacial Melting on Marine and Terrestrial Coastal Communities on a Gradient along the Western Antarctic Peninsula (ClicOPEN) - Argentina
3	Pacific-Antarctic influence on the Atlantic side of the Magellan Strait: Long term monitoring of Patagonian microbial communities at ca. 52° S
4	Technological development applied to Brazilian architecture in the Antarctic: emphasizing corrosive material, acoustics and residues (ARQUIANTAR)
5	Impact of petroleum soluble fraction in celom cells of the Antarctic sea-urchin <i>Sterechinus neumayeri</i> (Meissner, 1990)
6	Morpho-ontogenetic-molecular mapping of monostromatic chloroficeae populations from South Atlantic and Antarctica and occurrence of macroalgae from Admiralty Bay, King George Island
7	Effects of UV readiation on the DNA of marine organisms from Admiralty Bay, King George Island, Antarctica
8	Glacier Benchmark Network on Antarctic Peninsula (GLABENAP)
9	Impact of Climate induced Glacial Melting on Marine and Terrestrial Coastal Communities on a Gradient along the Western Antarctic Peninsula (ClicOPEN) - Brazil
10	Sea-Ice-Atmospheric Signals of Mid latitudes-Antarctic Linkages (SIAS)
11	Biological and physical processes in the Patagonian shelf and relevance for the south coast of Brasil
12	Southern Ocean Studies for Understanding Global-CLIMATE Issues (SOS-CLIMATE) - Brazil Sub-projects (IPY/JC): Synoptic Antarctic Shelf-Slope Interactions Study (SASSI) Collaborative Research into Antarctic Calving and ICEberg Evolution (CRAC-ICE)
13	Mesozoic and Cenozoic paleofloras from the South Shetlands Islands, with a special focus in King George and Nelson Islands: contribution to the establishment of geological and biological processes in past high latitudes and in the understanding of modern
14	Meteorological Monitoring of the Brazilian Antarctic Progam

15	Toxinology of Antarctic Invertebrates
16	Prospection of fossils from James Ross Basin cretaceous, East Antarctica
17	Study of the air-sea interaction at the Brazil-Mavinas Confluence region and its relation with the oceanic and atmospheric, Antarctic and Subantarctic processes (INTERCONF)
18	Characterisation of Antarctic foraminifera in South Shetland Islands
19	Heat shock proteins in antarctic animals as biomarkers of global warming
20	Microbial Diversity of Terrestrial and Maritime ecosystems in Antarctic Peninsula
21	Antarctic Bivalvia-mollusca: Biological diversity and taxonomy
22	Ornithogenic Ecosystems of Maritime Antarctica
23	Marine Antarctic Biodiversity in Relation to Environmental Heterogeneity at Admiralty Bay, King George Island, and adjacent areas in the Bransfield Strait (MABIREH) – 10 subprojects: Sub-project 1 Marine Antarctic Benthic Biodiversity in Relation to Envir
24	Study of the Separation between Antarctica and South America: its geological and biological implications (SEASOAM)
25	Marine Mammal Exploration of the Oceans Pole to Pole (MEOP-BR)
26	Study of the Mesosphere, Stratosphere and Troposphere Antarctica and its links South America (MST - ASA)
27	Space Weather Impacts in the Polar Atmosphere (SWIMPA)
28	Benthos Antarctic Evolution: systematic and biogeography of Cnidaria Medusozoa and Brachiopoda

29	Evolution and Biodiversity in the Antarctic: the Response of Life to Change (EBA) - Brazil
30	Historic evolution of the human activities based on indicators of burning of fossil fuels in sediment of the Admiralty Bay, King George Island, Antarctic Peninsula
31	Integrated Circumpolar Studies of Antarctic Marine Ecosystem to the Conservation of Living Resources (AMES) - Brazil
32	International Collaborative Expedicion to collect and study FISH indigenous to Sub-antarctic Habitats (ICEFISH) - Brazil
33	Origin and evolution of the antarctic benthic marine fauna: genetic diversity and molecular divergence between congeneric species from Antarctica and South America
34	Geological and Paleontological integrated studies on the long term South America and Antarctic Peninsula connection, and their evolutionary consequences over the modern biota of Chile and Argentina (GeoPaSAA)
35	Study of the boundary layer during the Second Scientific Expedition from Patriot Hills to South Pole, Boundary layer from Patriot to South Pole
36	Pine Island Glacier: ice dynamics and recent evolution in the onset region (PIGIDOR) - Chile
37	Geodynamics of the Hinge Zone between East and West Antarctica and influences on glacial evolution: a Transect between Patriot Hills (PET) - Chile
38	Colonisation of polar mosses and lichens: their influence on the studies of the global climatic change, conservation and human effects using a population genetic approach (CoPMaLGA) - Chile
39	Molecular studies on <i>Deschampsia antarctica</i>
40	Ecological studies on the Antarctic fur seal
41	Antarctic algae physiology
42	Ecology of cetaceans in the Southern Ocean and asociated ecosystems

43	Alternative development strategies of Antarctic marine invertebrates and its consequences on the demographic patterns and distribution
44	Systemic integration in the chemical evaluation of the environmental changes in the Antarctic Peninsula Area
45	Studies on marine birds at Ardley Island
46	Investigation, Development and Production of Commercial, Criophilic Proteases and Lipases from Krill and Antarctic Bacteria
47	Marine invertebrate physiology / Association with Bacteria
48	Algae Database / Remot Sensing
49	Climate and microclimate effects on breeding ecology of antarctic Tern <i>Sterna vittata</i> (Gmelin 1789) at Punta Crepin, King George Island, Antarctica
50	Study of the anomalies of the Ozone Layer in the Andean and Antarctic Region
51	Marine benthonic biodiversity of Bransfield Strait
52	Assesment of environmental risks in ECAMP
53	Marine biodiversity of Mackellar Cove and deep waters of Admiralty Bay
54	Development of an environmental energetic model in the antarctic region near ECAMP
55	Precision of temporary coordinates belongs to the landmarks of reference MAPI and MTH1 located in the scientific Antarctic station area, Macchu Picchu (PPCT)
56	Southern Ocean circulation studies (40° - 80° S; 90° - 40° W)

57	Sea level variability in the Mackellar Cove, Admiralty Bay
58	Biology and Ecology of pelagic communities from Bransfield Strait and Elephant Island surrounding areas (COPEPOD)
59	Study of the seasonal and spatial variability of the transport of aerosols in the Antarctic atmosphere and its relationship with measurements in Peru
60	Magnetic Survey of the Base Cientifica Antartica Artigas and environs (MAGBA)
61	Hydro-sensor-FLOWS Arctic and antarctic glacier hydrosystems as natural sensors for recent climatic variations - Uruguay
62	Disribution of cetaceans in the Southern Ocean and South Western Atlantic Ocean
63	Instituto Antartico Uruguayo (IAU) Summer Oceanographic Campaigns

Coordinator

Dr. Viviana A. Alder/ Dr. Enrique Marschoff
Instituto Antártico Argentino (IAA)

Dr. Irene Schloss
Instituto Antártico Argentino (IAA)
Consejo Nacional de Investigaciones Científicas y Técnicas (CONICET)

Dr. Viviana A. Alder/ Dr. Sergio Marensi
